MEDIA BIO - DEBBIE BISHOP

Award-winning author Debbie Bishop is a multi-genre author, creative director, entertainment executive, and CEO of Angelgate Entertainment with nearly three decades in the entertainment industry. A former model and actress who transitioned behind the camera, she built five companies—including three independent entertainment distributors, then an agency serving major studios including Disney, Warner Bros., Paramount, and Universal.

Her digital strategy work has driven over 2 billion views for the music industry. She hosts the *AI & Human Roundtable* podcast—set up to learn about AI, it expanded into ChatGPT, Gemini, Claude, Grok, and Meta conversing with each other through transcripts, and confessing truth bombs.

THE BOOK:

***PILLYWIGGIN Awakening: The Complete Story Arc* (Epic Fantasy, June 26, 2026)**

Synopsis:
Peter was warned to hide that he is a light fae, but he thought it was only because he lives at an elite academy in the human realm. Suddenly betrayed, he learns he is in danger. Sending a clone home in his place, he sets off to find out who is after him and why.

CAPTURED. FORGOTTEN. FORGED.

Stolen from their homes as children, imprisoned fae boys face their final day before they become dragonfood. They have survived a brutal realm, trained in secret, and failed before. A whispered prophecy speaks of a girl who will free them. She doesn't even know they exist.

At a Paris fashion show, a fae girl barges into Peter. He learns she is his twin sister.

Chloe and Peter—children of light and dark, separated at age two. Together they hold a dangerous power: the ability to unite the realms the hierarchy has kept divided for millennia. Forces will do anything to control that power. Or destroy them both.

This is no tale of a magical savior. This is the story of stray kids who become their own heroes—and discover that the greatest battle is for their own awakening.

AWAKENING: THE COMPLETE STORY ARC
Books 1 & 2: The Lost Shadow Boys and Awakening

Themes include awakening, inner strength, connection, resilience, self-discovery, identity, and belonging. Also, AI, military fiction, tech. Readers compare the series to *Lord of The Rings* and *Fourth Wing*.

OTHER WORKS:

War Eagles (WWII Sci-Fi)
When animation legend Ray Harryhausen asked Bishop to write and produce this project based on an unrealized concept by King Kong creator Merian C. Cooper, she was sitting at her desk contemplating it—when legendary Robotech creator Carl Macek called. He had dialed a wrong number. They talked anyway, discovered he'd spent three years researching Nazi and WWII tech for another project, and decided to collaborate. The result honors cinematic legacy while bringing Cooper's vision to life.

What Is the Meaning of Life? YOU (Transformative Nonfiction)
A practical manual on energy mechanics, manifestation, and abundance. Drawing on 40 years as a student of Dr. Kam Yuen and metaphysical research, Bishop teaches readers "easy real tricks" to delete internal blocks and reclaim joy.

Black Tide (Sci-Fi Comics, Image Comics)
A 15-issue sci-fi action series set in our real world and present-day Atlantis, featuring art by Mike S. Miller and Norm Breyfogle. The collected graphic novels established Bishop as a force in the comics world, with the companion novel Enter the Game expanding the universe.

The Fairies of Bladderwhack Pond (Children's Fantasy)
A whimsical chapter book illustrated by Andy Park that continues to delight children and families.

The Pre-Fab Cookbook (Lifestyle/Humor)
A playful cookbook featuring humorous commentary by cartoon characters Dish & Flo, filled with fun, fast recipes that also taste good.
